## Report on review of interim condensed consolidated financial information

To the board of directors of  
Noor Financial Investment Company – KPSC  
Kuwait

### *Introduction*

We have reviewed the accompanying interim condensed consolidated statement of financial position of Noor Financial Investment Company KPSC (the “Parent Company”) and its subsidiaries (together “the Group”) as of 30 June 2017 and the related interim condensed consolidated statement of profit or loss, statement of profit or loss and other comprehensive income, statement of changes in equity and statements of cash flows for the six-month period then ended. Management is responsible for the preparation and presentation of this interim condensed consolidated financial information in accordance with the basis of presentation set out in note (2). Our responsibility is to express a conclusion on this interim condensed consolidated financial information based on our review.

### *Scope of Review*

We conducted our review in accordance with International Standard on Review Engagements 2410, “Review of Interim Financial Information performed by the Independent Auditor of the Entity.” A review of interim financial information consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review is substantially less in scope than an audit conducted in accordance with International Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion.

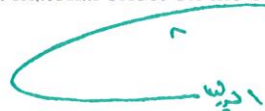

### *Conclusion*

Based on our review, nothing has come to our attention that causes us to believe that the accompanying interim condensed consolidated financial information is not prepared, in all material respects, in accordance with the basis of presentation set out in note (2).

### **Report on review of other legal and regulatory requirements**

Based on our review, the interim condensed consolidated financial information is in agreement with the books of the Parent Company. We further report that, to the best of our knowledge and belief, no violation of the Companies Law No. 1 of 2016 and its Executive Regulations, or of the Parent Company’s Memorandum of Incorporation and Articles of Association, as amended, have occurred during the six-month period ended 30 June 2017 that might have had a material effect on the business or financial position of the Group.

We further report that, during the course of our review, we have not become aware of any material violations of the provisions of Law No.32 of 1968, as amended, concerning currency, the Central Bank of Kuwait and the organisation of banking business, and its related regulations, or of the provision of law no 7 of 2010 concerning the Capital Market Authority and its related regulations during the six-months period ended 30 June 2017 that might have had a material effect on the business or financial position of the Group.

### 2 Basis of preparation(continued)

The annual consolidated financial statements for the year ended 31 December 2016 were prepared in accordance with the regulations of the Government of Kuwait for financial services institutions regulated by the Central Bank of Kuwait (CBK). These regulations require adoption of all IFRS except for the IAS 39 requirements for a collective provision, which has been replaced by the Central Bank of Kuwait's requirement for a minimum general provision as described under the accounting policy for impairment of financial assets.

The preparation of interim condensed consolidated financial information requires management to make judgements, estimates and assumptions that affect the application of accounting policies and the reported amounts of assets and liabilities, income and expense. Actual results may differ from these estimates.

In preparing this interim condensed consolidated financial information, the significant judgements made by management in applying the Group's accounting policies and the key sources of estimation uncertainty were the same as those that applied to the annual audited consolidated financial statements as at and for the year ended 31 December 2016.

Operating results for the six-month period ended 30 June 2017 are not necessarily indicative of the results that may be expected for the financial year ending 31 December 2017. For further details, refer to the consolidated financial statements and its related disclosures for the year ended 31 December 2016.

The subsidiaries are consolidated and share of results of associates are recorded based on the management accounts for the period ended 30 June 2017.

Fair value represents the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The Group measures financial instruments such as investments at fair value through profit or loss and available for sale investments (excluding certain available for sale investments which are carried at cost/cost less impairment for reasons specified in Note 8) at fair value and measurement details are disclosed in note 15.2 to the interim condensed consolidated financial statements. In the opinion of the Group's management, except for certain long term borrowing (refer note 10) the carrying amounts of all other financial assets and liabilities which are carried at amortised costs are considered a reasonable approximation of their fair values.

#### 15.2 Fair value hierarchy for financial instruments measured at fair value

The following table presents the financial assets which are measured at fair value in the interim condensed consolidated statement of financial position in accordance with the fair value hierarchy.

This hierarchy groups financial assets and liabilities into three levels based on the significance of inputs used in measuring the fair value of the financial assets and liabilities. The fair value hierarchy has the following levels:

Level 1: Quoted prices (unadjusted) in active markets for identical assets or liabilities;

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and

Level 3: Inputs for assets or liabilities that are not based on observable market data (unobservable inputs).

The level within which the financial asset or liability is classified is determined based on the lowest level of significant input to the fair value measurement.

The financial assets and liabilities measured at fair value in the consolidated statement of financial position are grouped into the fair value hierarchy as follows:
